

TheraStim®

A Breakthrough In Energy Therapy

Specifications

Main Pulse Frequency:
40-500 pulse / sec. adjustable
Background Frequency:
High Frequency wave
Output Signal Power:
Maximum output power between 0 and 4 watts.
Portability:
Optional Battery and Carrying case
Dimensions:
4" (h) x 8" (w) x 9" (d)
Weight:
7.5 lb (unit only)

What Makes TheraStim® Unique

The Wave Form

Compound, Double Exponential, Asymmetric Wave Form

- High level of direct current
- Deepest soft tissue penetration resonates with the human system
- Body's natural resistance "drops out"

The Power

High Power With No Surface Burning Or Pain

- Seeks trauma area
- Body accommodates to waves
- Numbs treatment area
- Travels outside treatment area to help identify other charged systems/injuries and trigger points

The Application

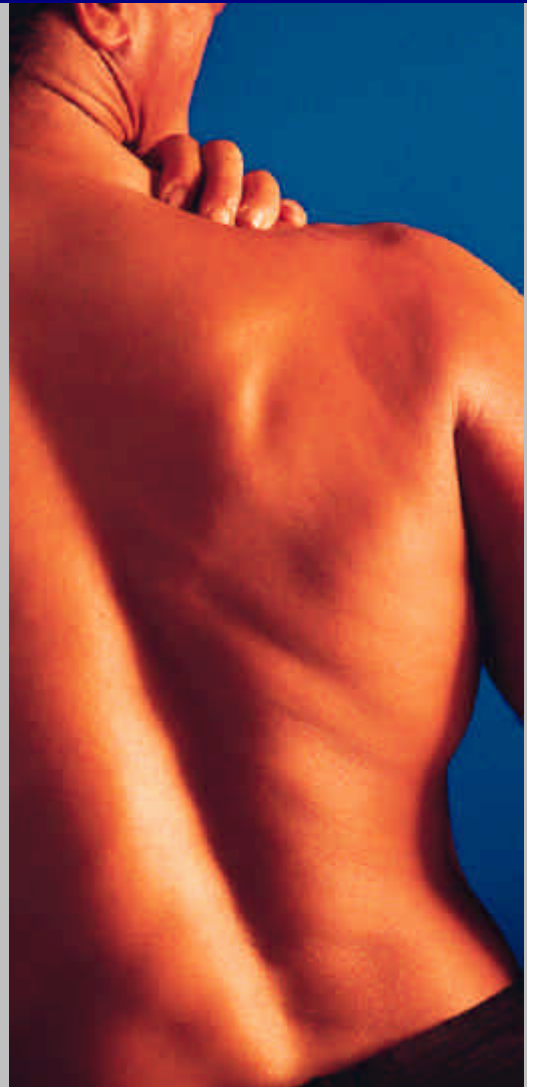

The Patient Is In Motion During Treatment

- Using same movement that that causes pain
- Opens up field current to the charge of injury
- Dissipates charge of injury effectively

The Outcome

Results are Immediate and Dramatic

- Greatly shortens healing process
- May assist in the reduction of scar tissue
- Dissipates charge of injury
- Helps breakdown the Collagen binding caused from soft tissue damage
- Often returns Muscle to Pre-injury condition

TheraStim®

EXPERIENCE A TECHNOLOGY THAT HAS BEEN USED ON
PROS IN THE PGA, THE NFL, MAJOR LEAGUE BASEBALL
AND THE OLYMPICS.
